Small Animal Emergency and Critical Care Internship
Vets Now Manchester

Learn with the best

Vets Now, the European leader in Emergency and Critical Care, is renowned for its high-quality national emergency service provision, its fast-track emergency training programmes (Edge) and its European Board of Veterinary Specialisation Residency Programme. We take pride in offering a well-established Emergency and Critical Care Internship Programme at our referral hospital in Manchester.

About Us:

Our multi-disciplinary hospitals are seeking applications for dedicated Emergency and Critical Care Interns. Join our dynamic team, supervised by residency-trained/board-certified ECC clinicians and expand your skills in our well-equipped ICU.

Position Overview:

This role is perfect for those laying foundations for residency applications or aspiring to strengthen their abilities in emergency and critical care. The role primarily involves clinical work in ICU, and management of emergency referrals, with a rolling rota and no on-call duties.

What we offer

- Provision of emergency and critical care under supervision.
- Working with multiple disciplines to enhance your case management.
- Allocated time for externships.
- Inclusion in IVC Evidensia Surgery Speciality group meetings, including regular case discussions and journal clubs.
- Additional allowance to be used on CPD/European conference attendance.
- RCVS Knowledge Library membership.
- VECCS membership for one year.
- A clinical mentor to support your learning pathway, internship experience and assist with research opportunities.
- Salary: £35,000 per annum.
- VDS and RCVS registration fees covered.
- 7 weeks annual leave and your birthday off.
- 12-month position.

About the Opportunity

To thrive in our dynamic learning environment, we seek interns committed to learning and development, working in a collegial environment, emphasising client and patient care. Proactive engagement in training, participation in seminars, journal clubs and local teaching opportunities is essential. Interns will actively contribute to research projects and work closely with clinical mentors.

Key Responsibilities:

- Participate in planning, diagnosis and treatment of cases.
- Consider animal welfare and ethics in interventions.
- Maintain high clinical standards and accurate records.
- Engage in positive, informative and inclusive case discussions.

What We Expect

- Open engagement in case discussions with senior clinicians, residents and the nursing team.
- The ability to prioritise and stay calm in challenging situations.
- Maintaining impeccable clinical records and written correspondence.
- Strong communication skills.
- Compassion, reliability and professionalism.
- To uphold and align with the Vets Now values.

Your Journey Starts Here:

Are you ready for an extraordinary internship experience? To apply, candidates must posses a recognised Veterinary Degree, and be or have eligibility to be a member of the Royal College of Veterinary Surgeons.

Applicants must also have successfully completed a small animal rotating internship in a multi-disciplinary referral hospital.

Eligible candidates should also have the right to work in the UK and possess the required Visa documents.

Please apply via the application link or email your CV, cover letter and references to ryan.powell@ivcevidensia.com

Contact our Talent Team

To discuss, please get in touch with Ryan Powell in our Talent Team on 07816 202690 or email ryan.powell@ivcevidensia.com

Please highlight as part of your application which role you are applying for and, if you have a preference, which location you would like to work in.
