

The Veterinary Clinic of the Faculty of Veterinary Medicine, University of Liège, Belgium, has just opened its brand new Companion Animal Clinic early April 2019. Moreover, the Faculty of Veterinary Medicine has recently received approval for a residency program of the European College of Veterinary Emergency and Critical Care (ECVECC). As in the new clinic, the emergency and critical care (ECC) service will be expanded, we currently offer **the following positions** :

- Full-time senior ECC clinician
- Full-time ECVECC resident
- Several full-time positions for ECC interns

starting October 1st, 2019

The Faculty of Veterinary Medicine of Liège University is located outside of the city center, on a hilly slope above the pittoresk village Tilff, at the entrance of the beautiful Ardennes. The University Clinic is a busy tertiary referral center and teaching hospital. It receives emergencies and referral cases in internal medicine, surgery, cardiology, neurology, oncology, among other disciplines. The applicants will therefore work together in a team of specialists and residents in a large variety of disciplines such as anesthesiology, cardiology, medical imaging, internal medicine, and surgery (over 20 specialists and 10 residents, over 50 veterinarians in total).

Moreover, the University Companion Animal Clinic recently relocated to a new state of the art facility. Features are separate emergency rooms with an adjacent procedure room, separate waiting rooms, hospitalisation and intensive care units for dogs and cats, a medium care facility and a separate room for epileptic patients.

All positions are available for people passionate about ECC, with

special attention to teaching, collaboration and the development of a brand new team in a brand new facility.

For the **senior clinician**, preference will be given to candidates with an ACVECC or ECVECC diploma, or board eligible. However, applicants boarded or board eligible in affiliated disciplines, as well as candidates with previous experience and/or a strong interest in ECC will also be considered. The senior clinician will take primary responsibility for ECC patients and will work in an open ECC environment. The candidate will be part of a team composed of one ECVECC diplomate, one ECC resident, several ECC interns, 4 ECC nurses and a team of 12 rotating interns. He/she will be involved in clinical teaching to students, interns, and will be responsible for advising residents from other services.

For the **resident** and the **ECC interns**, candidates must have performed a rotating internship previously, or have obtained at least two years of experience in small animal practice.

Knowledge or willingness to learn the French language is required in order to communicate efficiently with students and colleagues.

For further information, please contact
Dr Kris Gommeren (Kris.Gommeren@uliege.be) or
Prof Annick Hamaide (Annick.Hamaide@uliege.be)

You are invited to mail your application (CV + motivation letter + 2 reference letters) to Nadine Fis (Nadine.fis@uliege.be) before **the 31st of May, 2019**.

Retained candidates will be invited for an interview on the 13th of June 2019.
