Part of Improve International, **Improve Veterinary Education** has been delivering **high-quality, practice-relevant training** to vets and vet nurses in **over 20 countries** for more than **25 years**. Improve Veterinary Education's training programmes are built around **real-life application**, academic rigour, and learner support.

Emergency and Critical Care Courses

for VETS

EMERGENCY MEDICINE AND SURGERY

Online

ISVPS General Practitioner Certificate (GPCert)
Postgraduate Certificate (PgC)

This programme is designed to give veterinary surgeons the knowledge, confidence, and practical skills to handle high-pressure emergencies with clarity and control. Blending online learning with hands-on training, you'll dive deep into each topic through interactive content and high-quality procedural videos. Delivered in collaboration with RECOVER (Reassessment Campaign on Veterinary Resuscitation), the course also includes access to their industry-leading Basic and Advanced Life Support training.

A new intake starts in **November 2026.**

ECC courses for NURSES

ADVANCED EMERGENCY AND CRITICAL CARE NURSING

Online

ISVPS Nurse Advanced Certificate (NAdvCert)

Built for veterinary nurses with a grounding in ECC, this advanced programme explores key topics like transfusion medicine and toxicology. Across 8 in-depth modules, you'll learn to optimise ECC workflows, lead clinics with confidence, and support both patient outcomes and team wellbeing – physically, mentally, and emotionally.

A new intake starts in **September 2026.**

EMERGENCY AND CRITICAL CARE NURSING

Online

ISVPS Nurse Certificate (NCert)

This 8-module course enhances confidence and effectiveness in handling emergency cases. It allows nurses to act swiftly and calmly in emergency situations, ultimately improving patient outcomes. Ideal for general practice and referral nurses, the programme emphasises the principles of nursing emergency patients to optimise their care and welfare.

A new intake starts in **August 2026.**
